

2025 ADVOCACY PRIORITIES

PATIENT CENTERED ADVOCACY

- Hosting our bi-annual Advocacy Summit
- Growing availability of trainings and resources, as well as webinars on a diverse range of topics
- Building upon media advocacy success by providing more patients more opportunities to share their story

FEDERAL

- Fighting for robust funding for Arthritis research
- Continuing engagement and collaboration with the Arthritis Caucus
- Building support for our top legislative priorities

STATE

- Leading the drive to pass legislation in our priority states: CA, MI, PA, NJ, & TX
- Making sure all copays count, step therapy protocols are reasonable, and biomarker testing is covered in as many states as possible
- Watching new emerging issues that could impact people with arthritis, such as the use of artificial intelligence in health care.

IDEAL MODEL OF CARE

- Developing patient-centered recommendations for health systems to use in improving patient care
- Building partnerships with health systems to implement our patient-centered recommendations
- Providing resources to patients to help them receive their ideal model of care
